

Comparing Grades

The chart below shows the grades received by a class of students on their first test.

Enter the data in L1 (score) and L2 (Frequency)

Score	99	96	92	88	84	78	74	70	66	64
Freq	1	2	3	5	2	7	4	3	2	1

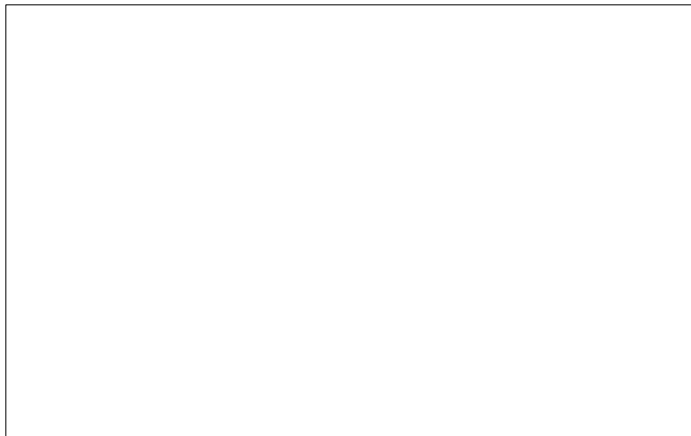

Create a histogram where the width of the bars is 5.

Make a sketch of the histogram in the space below.

Create a histogram where the width of the bars is not 5.

Make a sketch of the histogram in the space below.

What differences and similarities do you observe from the two histograms? Where are the majority of the grades?
