

## Working with Fractions on the TI-73 Graphing Calculator

|   |  |   |
|---|--|---|
| <p>To enter <math>1\frac{3}{4}</math>:</p>                              | <p>Press 1 UNIT followed by 3 ↓ 4</p>  |    |
| <p>To convert <math>1\frac{3}{4}</math> to a decimal:</p>               | <p>Press <math>F \leftrightarrow D</math> and ENTER</p>  |    |
| <p>To convert 1.75 to a fraction:</p>                                   | <p>Press 1.75 <math>F \leftrightarrow D</math> and ENTER</p>   |    |
| <p>Notice the fraction can be simplified. To simplify the fraction:</p> | <p>Press SIMP and enter a common factor for 75 and 100 and press ENTER.</p>  |   |
| <p>To change <math>1\frac{3}{4}</math> to an improper fraction:</p>     | <p>Enter <math>1\frac{3}{4}</math> and press <math>A \frac{b}{c} \leftrightarrow \frac{d}{e}</math> and ENTER.</p> |  |
| <p>To convert <math>\frac{7}{4}</math> to a mixed number:</p>           | <p>Enter <math>\frac{7}{4}</math> and press <math>A \frac{b}{c} \leftrightarrow \frac{d}{e}</math> and ENTER.</p>  |  |
